During May 2004; 244 homes were **SOLD** compared to 241 in 2003.

Are we going to make it to **\$300,000**? Our average price hit **\$296,471!**

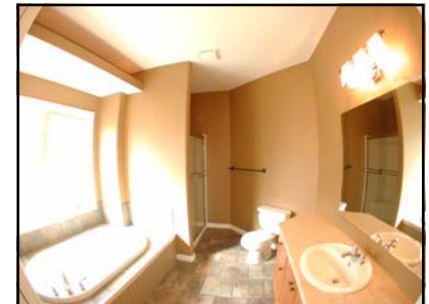

Feb 2004 was \$255,706, March \$264,780, April \$276,865 and now \$296,471! Pls. remember it only tells us how much people are willing to spend in the average for a home, not what kind of home they bought.

Also we are seeing a lot of reductions coming in, especially in the upper price range.

For more info and stats please call me anytime at 868-8000.
